An Agentic Engineer | Sr. Software Engineer | Swift | Objective-C | AI Applications | Generative AI | Agentic AI | LLMs | RAG | Python |
Nurpur, Himachal Pradesh, India

Summary

Agentic Engineer | Senior Software Engineer with 9+ years of experience designing and building scalable, high-performance mobile applications for millions of users. Currently expanding my expertise into Generative AI and Agentic AI, focusing on building intelligent applications using Python, LangGraph, LangChain, CrewAI, AutoGen, MCP (Model Context Protocol), Docker, and Large Language Models (LLMs). Passionate about developing autonomous AI agents, multi-agent systems, workflow automation, and AI-powered software solutions. Strong expertise in Swift, Objective-C, UIKit, MVVM, Clean Architecture, REST APIs, System Design, performance optimization, and scalable application architecture. Proven track record of delivering production-ready applications, improving performance, mentoring engineers, and collaborating across cross-functional teams. I enjoy solving complex engineering problems and building scalable products that combine traditional software engineering with modern AI technologies.
